Questions 7 – 13

For each question, choose the correct answer.

Holiday Ideas

Amelia

I would like to go to Spain. I saw a programme about Barcelona last week and it looked amazing. There are lots of things to do there, like going to museums and art galleries. It even has some beaches which are only about 4 kilometres away, but I prefer the culture. I like to keep busy on holiday, so I will try to visit as many places as I can. It's not as hot in the summer as in the south of Spain which suits me.

Sophie

I want to visit Cannes in France. It's famous for the film festival when all the film stars visit there. I do like the French culture, but I would prefer to spend all day on the beach and swimming in the sea. It is hot in summer, but I don't mind because I like hot weather when I am on holiday. I really like doing nothing much when I am on holiday.

Charlotte

I'd like to go to Austria. I would like to go skiing, and you can ski in the summer in Hinterlux. They have mountains of ice which you can ski on. It's the only place in Austria where you can ski all year. I like winter sports and I would like to have some skiing lessons because I'm not very good at skiing.

Questions 14 – 18

Read the article about having a healthy diet. For each question, choose the correct answer.

A healthy diet

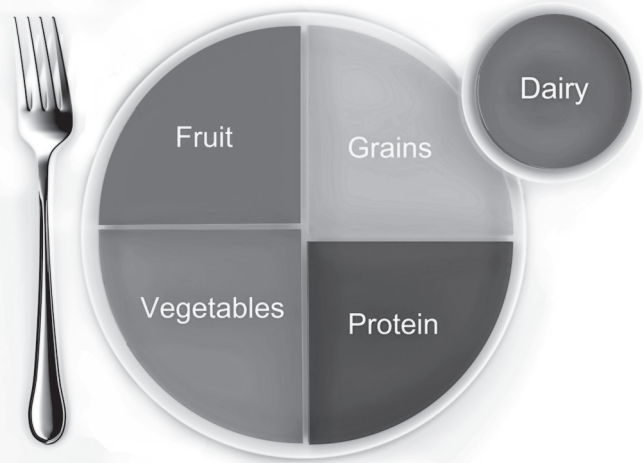

By Josh Green, age 13

Everyone should have a healthy diet. But what does this mean? If you think it means eating lots of fresh fruit and vegetables and no chocolate and sweets, then you're wrong. A healthy diet is actually a balanced diet with lots of different kinds of food.

There are several food groups: dairy, which includes milk and cheese and protein which includes meats like chicken and pork. Fruit and vegetables are also important food groups. The last group is grains which includes things like rice and corn. We should eat food from all these different groups.

People have unhealthy diets when they eat too much of one kind of food and not enough of another. Someone who eats lots of bread, pasta and potatoes all the time and not enough fruit doesn't have a very healthy diet. On the other hand, someone who eats only things like cheese and vegetables doesn't have a very balanced diet either.

Each food group is good for us in different ways. Some foods give us energy like carbohydrates (e.g. in potatoes), protein helps our bodies to grow and makes our bones strong and others like fruit and vegetables protect against illness. Our bodies need to get lots of different things from the food we eat, and eating a balanced diet means that we get all of the things we need to be fit and healthy.
